I & M YOURS YOU & REMINE

This song has been sung over the years but to most its just another song but to you what I want from you is to confess this to Me. Don't say it unless you truly mean it. Ask yourself go deep down on the deep and examine yourself. Are you truly mine have you truly given up have you given up

your all to Me? If you know that there are things in your life that isn't pleasing to Me then give it up to Me allow Me to remove those things and replace it with more of Myself allow Me to fill up your cup with Me. I will not force Myself on you and I will not force you to give anything up. That is a choice that you have to make. Will you continue to live the life you're living now or will you allow Me to remove those dark secrets out of your life that is not pleasing to Me. Things that you not even know about.

Will you continue to live the life you're living now or will you allow Me to remove those dark secrets out of your life that is not pleasing to Me. Things that you not even know about. So come to Me and let Me operate on you let Me put you on My operating table and let Me remove all of this filth that is on the inside of you and allow Me to fill you up with more of Me. I desire for My Body to go higher in Me well for you to get the more and to go higher in Me then you need to allow Me to operate on you. For if you say that you are fine and on you.

For if you say that you are fine and that you don't need this then that is your choice but "Hear Me" when I say this you will never go higher in Me if you will not allow Me to operate on you. There are some of you that are saying if this is God or not, so I say Come to Me and talk with Me, come to Me yourself and allow Me to show you that this is Me. So, I say this again will you allow Me to operate on you will you let Me to take you into surgery and to put you onto My operating table and to cut you open in the Spirit and to remove all that

is not of Me and allow Me to pour more of Myself into you for whatever I take out I will replace it with more of Me. So, will you allow Me to do this will you allow Me to operate?
